Experience

Web Developer/Visual Artist 2016-2017
SpaceCloud, Toronto, Ontario, Canada

As part of SpaceCloud, Web Development company, we developed several websites that required a lot of work in front and back end. We were ask to develop very intuitive UI that can suit big quantity of different products that are stored in database

Capstone Project 2017

I am currently working on my Capstone Project. It is an application for windows named AnimeViewer. It connects to different databases and store the information about all animes allowing users to check what they whatched, bookmark what they want to watch and let the users search for new show based on their preferences
